SERVICES OFFERED BANKWIDE:

"Same-day-credit" is a positive feature that First National Bank accountholders enjoy. Deposits made during regular business hours, Monday through Friday with the exception of Federal holidays, are considered deposited on that date. This allows our customers more time to make deposits and receive same day credit on their funds; a real plus for those who work in the manufacturing segment of our communities.

Alternative Banking Services

Bank-By-Mail: The bank-by-mail method is an alternative way of banking for individuals who are unable to come in to our branches. This service is available to all of our customers at no additional charge. The bank provides postage paid business reply envelopes with which the customer may mail in their deposits. Once the item is received and processed by bank personnel, the customer is then mailed a receipt.

Electronic banking services allow our customers to access their bank accounts in many different ways and from various venues. These services reduce the customer's dependency on traditional "brick and mortar" offices. Services include automatic teller machines (ATM), telephone banking systems, and internet banking systems. Even though there are considerable costs absorbed by the bank in order to provide these conveniences, these electronic banking services are available at no cost to the customer. The following summarizes our various electronic banking services.

Automatic Teller Machines. First National Bank has 29 ATMs that are available to the public 24 hours a day, 7 days a week. Two of these ATMs are in the distressed area of Clay county. In addition to the machines mentioned above in the branch descriptions, FNB also maintains an ATM in the lobby of Arkansas Methodist Hospital in Paragould, Highway 10 in Little Rock, Foxcroft in Little

Rock, TAC Air airport in Little Rock, Dickey Stephens Ballpark in North Little Rock, and Heights Grocery in Little Rock.

First National Bank does not charge a fee for issuing an ATM card or VISA debit card. There are no monthly service charges, and we do not charge our customers transaction fees for using their ATM cards at any of our machines. Point of sale transactions are also handled at no charge. If a customer uses their ATM card at a machine owned by another institution there is a \$1 fee per transaction. FNB is a member of two ATM network systems. The PLUS and PULSE ATM networks allow customers to access their accounts worldwide for withdrawals and transfers of funds. Our ATMs are also part of the QUEST ATM system which allows recipients of government benefits to use their Electronic Benefits Transactions cards to access their cash benefits. The EBT cardholder need not be an account holder of FNB to be able to access their benefits and is not charged a fee for this service. In 2005, First National Bank purchased the equipment necessary to add the availability of postage stamps at our ATMs. A customer may purchase a sheet of eighteen postage stamps with their ATM, debit, or credit card.

Telephone and Internet Banking. Since 1997, First National Bank has offered free telephone banking, "*PhoneFirst*", which allows customers 24-hour access to their account information. The system requires accountholders to verify their identity with the use of a personal identification number to prevent unauthorized access.

In 1999, FNB began offering free internet banking to its customers, allowing customers to access their account information from anywhere in the world. "*NetTeller*" service gives customers account information, the ability to transfer funds, or make loan payments.

For our customers who enjoy the benefits of "*NetTeller*", we offer an additional bill pay service. There is no monthly fee for this service, with only minimal charges after the first twenty-five payments a month.

New Mobile App. We have made enhancements to our App for everyday banking needs to be accomplished using a smart phone. A NetTeller customer may use their smart phone to check their balance, transfer funds between accounts, pay bills (if a bill pay customer), deposit checks, view transactions, and chat with employees. There is no charge for this service although the customer is required to have a data plan with their phone service provider.

Live Chat. Customers are now able to chat with an employee of First National Bank both online, or through their First National Bank app. If customers have questions regarding a specific transaction, they have the ability to attach the transaction in question to the chat. Live Chat is available Monday through Friday from 8 a.m. to 4:30 p.m.

Remote Deposit Capture. Commercial Customers. Customers can scan their deposits through a batch processing machine which encrypts the information and automatically sends information to us to process the deposit.

ACH Origination/Direct Deposit. Commercial Customers. Customers import or create files in netteller. The information is encrypted. The ACH department checks totals for verification.

Lending

We understand that lending plays a critical role in the economic growth and development of our communities. It is the intention of First National Bank to make credit available to all creditworthy customers of our assessment areas by applying fair lending practices and policies. Our loan policy provides the guidelines for these extensions of credit and prohibits discriminatory practices.

First National Bank also has relationships with local businesses where we make “dealer loans”. These dealer relationships allow us to reach a broader range of customers, including individuals who might not ordinarily use the services we provide.

Types of Credit

Types of credit offered by First National Bank include, but are not limited to, the following: Residential loans

Home improvement loans

Small business loans

Agricultural loans

Community development/revitalization loans

Commercial loans

Consumer loans

Indirect dealer loans

Secondary Market loans: FHA, VA, USDA/RD, Conventional and Jumbo

DEPOSIT SERVICES

Since 1995, FNB has offered free checking to the people of our community. These accounts are the most popular type of account opened at First National Bank. There is no monthly service charge and no minimum balance requirement; allowing more individuals the opportunity to use banking services. First National also offers a savings account that may be opened with a deposit of \$10 and may be maintained with a low minimum balance of \$10. There is a quarterly service charge of \$3 for accounts falling

below the minimum balance; a minor amount for this type of account. We feel that our free checking and our savings accounts reach a portion of the community which would otherwise not be served.

First National does not charge a fee for cashing local payroll checks and most government issued checks (the exception being income tax refunds). We also do free cash advances from electronic benefit cards such as unemployment benefit cards.

Other Services

Utility Bill Payments. Customers of Paragould City Light & Water, Entergy, Centerpoint, and Allegiance Cable formerly Cox Cable may pay their bills at a First National Bank teller window at no additional charge. This service is greatly used in our Paragould and Corning branches. First National Bank also offers brochures in Spanish for our Spanish-speaking customers. First National Bank has a dedicated team of Retail Bankers for our business customers.
